MAY 17 1967

Dear Professor Lederberg:

We have a letter from you which we have had set in type but which we have been unable to fit in because of the unprecedented volume of mail of the past weeks.

We find nothing in our files to indicate that there has been any restoration of the budget cuts in California's mental hygiene program and assume therefore that your letter is still current. Unless we hear otherwise from you, we shall plan to use the letter soon; I hope that you will not object if we advance the dating of it.

Thank you for having written us.

Yours very truly

Louise Polk Huger
